

# The Only Fully Antimicrobial Stethoscope

Treated with

MicrobeCare™ is a patented, molecularly bonded antimicrobial treatment. MicrobeCare™ is colorless, odorless, non-leaching, and has shown to have a persistent reduction in surface contamination.

Germicidal • Viricidal • Bactericidal • Fungicidal • Tuberculocidal

*Green is Clean™*

READ MORE ABOUT  
MicrobeCare™ IN THE  
**AMERICAN JOURNAL OF  
INFECTION CONTROL**

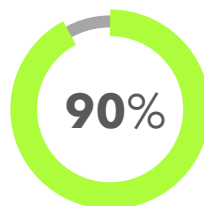

**Assessment of an innovative antimicrobial surface disinfectant in the operating room environment using adenosine triphosphate bioluminescence assay.** Lewis, B. J., Spencer, M., Rossi, P. J., et al. *Am J Infect Control*, Vol 43, p283-285.

**Assessment of a novel antimicrobial surface disinfectant on inert surfaces in the intensive care unit environment using ATP-bioluminescence assay.** Edmiston, C. E., Spencer, M., Lewis, B. D., et al. *Am J Infect Control*, Vol 48, p143-146.

*A baseline study was conducted at a 150 bed hospital. 95 stethoscopes were cultured and tested with adenosine triphosphate (ATP) bioluminescence assay prior to being treated with MicrobeCare™.*

of untreated stethoscopes were **culture-positive** with **heavy** bacterial contamination.

reduction in average ATP scores **90-days** after a single application of MicrobeCare™. (initial avg. 398 RLU, post avg. 39 RLU).

**100x**

more contamination on untreated stethoscopes than stethoscopes treated with MicrobeCare™ **90-days** after treatment.

*36% of treated stethoscopes were **culture-negative** 90-days after a single application of MicrobeCare™.*
